PROJECT SSR 2020-06: 2020 COLLECTION SYSTEM ASSESSMENT AND REHABILITATION – OLIVE STREET

PROJECT AREA: NEW HAVEN - WARDS 6,7 AND 8

PROJECT OVERVIEW

This Project includes the rehabilitation of multiple sections of the existing sanitary sewer mains located along Olive Street, Wooster Street, Grand Avenue, Jefferson Street, and Court Street in New Haven. The proposed project includes the cured-in-place pipe (CIPP) lining of approximately 4,740 feet of sewer mains of various sizes from 20"x30" brick sewers, to 12" unreinforced cement pipe. As part of the project the contractor shall provide cleaning services and CCTV inspection services on the areas to be rehabilitated.

BENEFITS

- Rehabilitates aging infrastructure.
- Allows for increased sewer flow capacity.
- Minimizes potential failure for redevelopment construction activities.

IMPACTS

- Some traffic and parking impacts are expected.
- Signs and fencing will be erected to maintain safety of residents and workers.
- Traffic will be guided by construction signs and/or police and flagman as required per City/State requirements.

TIMING AND COORDINATION

Construction Start: Winter 2020

Duration: The entire project is expected to last approximately 1 month with about 1 day per location

Schedule: Mon-Fri from 9 am to 3 pm

**Due to dynamics of construction schedule, weather and other factors, dates and times are subject to change.*
