

YALE CAMPUS/TRUMBULL STREET AREA SEWER SEPARATION - PHASE 2

Update May 15th, 2026

Construction for the Sewer Separation Project in the vicinity of Pearl Street, Lincoln Street, Bradley Street, Whitney Avenue and Sachem Street in New Haven will occur through 2025. Once completed, the project will have separated approximately 120 acres of storm water from the sanitary sewer system. This will improve roadway drainage, reduce rainwater flows to the sewage treatment plant and increase the available capacity in the sewer system to reduce combined sewer overflows.

UTILITY RELOCATION WORK TO CONTINUE

PARKING BANS WILL BE POSTED - TOWING OF VEHICLES MAY OCCUR.

TRAFFIC ADVISORY

Work Areas require Temporary Parking Bans. If you will be out of Town, please arrange for someone to move your vehicle if a Parking Ban is posted.

Lane Closures and Detours will be required to create a safe work zone and a safe travel zone for the public.

Please communicate with the on-site police officers and traffic flaggers if you need assistance navigating in/around work areas.

Please drive, bicycle, or walk cautiously and allow extra time to reach your destination.

STORM DRAIN CONSTRUCTION AREAS

- **PEARL ST –WORK**

Repaving of select areas is anticipated in June.
